

## **INSTRUCTOR BACK GROUND**

George Klemm

George Klemm has been actively involved with the fire service for over 38 Years. He has taken extensive training in North America and around the world in vehicle extrication and other rescue disciplines.

George is a member of the Society of Automotive Engineers, as well as, the Electric Vehicle Society, which allows him direct access to new vehicle technologies.

He is also a member of the Transportation Rescue Committee Canada. He is active in vehicle extrication competitions in judging, set-up and scenario design at a regional, national, international and world level. George instructs numerous emergency services in extrication to meet the different standards drawing on knowledge, at a world level.
